

# MEA LOCKER

## MEA

### ATTRACTIVE DESIGN AND NEW FEATURES

The requirements for lockers have changed in recent years, both in terms of design and functionality. This is why we created MEA. The clean lines of the design and attractive colour combinations create a pleasant interior not usually associated with locker solutions. The curved door provides additional storage space, for example for toiletry articles. The shelf, towel rail, shoe rack and mirror are easily adjustable. This makes MEA suitable for all types of users, regardless of gender, height or workplace.

#### Door:

MEA can be supplied with left- or right-hinged doors. The curved door provides additional storage space.

#### Locks:

MEA is available with several locking options: padlock hoop, cylinder lock, code lock, card lock or coin-operated lock.

#### Fittings:

Shelf and clothes hanger with two anchored hooks are standard equipment. Towel rail, mirror, laptop box and valuables box with an anchored peg below and shoe rack are optional extras.

#### Base:

Stand, height 135 mm.  
Feet, height 200 mm

#### Colours:

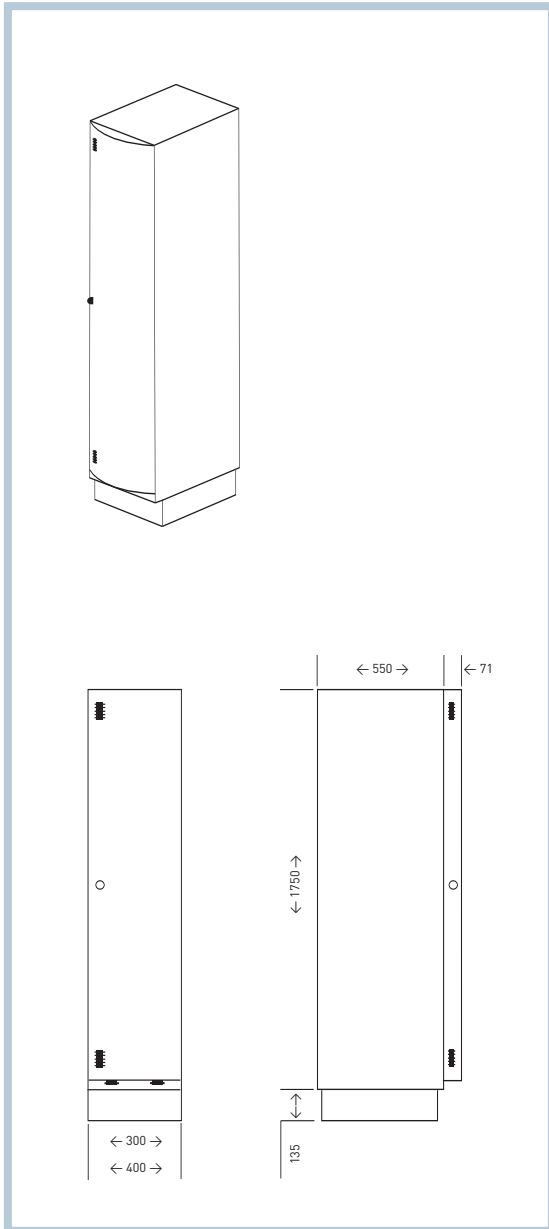

MEA is delivered in

 ice blue (NCS 05-20B),  
but is also available in our standard colours.
